SUMMARY

- Full Stack Developer with 3 years of experience specializing in backend architecture, Laravel, and custom application development. Proven expertise in building scalable RESTful APIs, database optimization, queuing systems, and production server deployments (AWS EC2, Nginx, Apache, Cloudflare). Experienced in automated workflows, CI/CD with GitHub Actions, and integrating AI services (OpenAI API, RAG, Embeddings, Vector Databases).

EXPERIENCE

- **Softthought** Kolkata, West Bengal, India
Backend Developer 12/2023 – Present
 - **Backend Architecture & APIs:** Architected and maintained scalable backend systems and RESTful APIs using Laravel and CodeIgniter for enterprise-grade applications.
 - **Deployment & Infrastructure:** Managed end-to-end production deployments, web server configurations (Nginx, Apache), and cloud infrastructure setup on AWS EC2 and Cloudflare.
 - **Queuing & Async Processing:** Streamlined asynchronous task processing and scheduled workflows using Queues, Redis, and Cron jobs to optimize application responsiveness.
 - **CI/CD Automation:** Configured automated CI/CD deployment pipelines using GitHub Actions, accelerating feature delivery cycles and maintaining high availability.
 - **Real-Time & Optimization:** Implemented real-time WebSockets and optimized complex MySQL query execution to deliver high-performance production solutions.

PROJECTS

- **Gainwell Loyalty Program**
 - **Architecture & APIs:** Designed backend services and scalable MySQL database schemas for enterprise customer loyalty and rewards distribution.
 - **Performance:** Implemented RESTful API endpoints and Redis caching mechanisms for secure transaction handling and real-time user tracking.
 - **Tech Stack:** PHP · Laravel · MySQL · REST APIs · Redis
- **Cooperative Loan Distribution Portal**
 - **Workflow Engine:** Developed financial workflow modules in CodeIgniter to automate loan application processing, verification, and fund disbursement.
 - **Security & Audit:** Engineered comprehensive audit logging, Role-Based Access Control (RBAC), and automated reporting modules.
 - **Tech Stack:** PHP · CodeIgniter · MySQL · JavaScript · Bootstrap
- **Nephro Care Transplant Application**
 - **Healthcare System:** Architected clinical tracking portal for patient data management, organ transplant matching, and medical record security.
 - **Data Privacy:** Implemented strict data privacy protocols, fine-grained access permissions, and automated notification workflows.
 - **Tech Stack:** PHP · Laravel · REST APIs · MySQL · Bootstrap
- **WMS (Warehouse Management System)**
 - **Logistics & Inventory:** Engineered inventory tracking system, stock movement workflows, and barcode scan processing pipelines for logistics operations.
 - **Database Optimization:** Optimized complex SQL queries and database indexing to maintain real-time inventory synchronization across multi-warehouse setups.
 - **Tech Stack:** PHP · Laravel · MySQL · jQuery · WebSockets
- **Giftyo E-Commerce Platform**

- **E-Commerce APIs:** Built scalable backend APIs, shopping cart workflows, payment gateway integrations, and order management features.
- **Performance Tuning:** Applied web server performance tuning and caching strategies to ensure reliable handling of peak retail traffic.
- **Tech Stack:** PHP · Laravel · Node.js · Express.js · MySQL · HTML/CSS

OPEN SOURCE / GITHUB PROJECTS

- **Automation Tool Package Manager** GitHub
 - **CLI Tooling:** Developed a CLI automation tool package manager in PHP/Node.js to streamline local development workflows and environment bootstrapping.
 - **Tech Stack:** PHP · Node.js · CLI · Git
- **WhatsApp Automation Pipeline** GitHub
 - **Messaging Engine:** Created an automated notification dispatch system leveraging Node.js, WebSockets, and asynchronous queue management.
 - **Tech Stack:** Node.js · WebSockets · Queues · JavaScript
- **Laravel Custom Package Manager** GitHub
 - **Modular Utilities:** Built modular Laravel package utilities for reusable backend services, rapid boilerplate scaffolding, and API integration.
 - **Tech Stack:** PHP · Laravel · Composer · Git

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript, Python, Java, HTML5, CSS3, SQL
- **Backend & Frameworks:** Laravel, CodeIgniter, Node.js, Express.js, REST APIs, WebSockets, Queues, Redis, Cron/Scheduler
- **Frontend & Web:** Bootstrap, jQuery, AJAX, Responsive Web Design
- **Databases & Caching:** MySQL, Redis
- **DevOps, Cloud & Servers:** AWS (EC2), Cloudflare, Docker, Nginx, Apache, CI/CD, GitHub Actions, Git
- **AI & Emerging Tech:** OpenAI API, RAG (Retrieval-Augmented Generation), Embeddings, Vector Databases, Whisper, Speech Diarization

EDUCATION

- **Techno International Batanagar** Kolkata, West Bengal, India
Bachelor of Technology (B.Tech) 2023 – 2026
- Cumulative Grade Point Average (CGPA): 7.0 / 10
- **Diploma in Engineering** West Bengal, India
Diploma Completed
- Cumulative Grade Point Average (CGPA): 8.6 / 10

CERTIFICATIONS

- **IBM Internship Certification** (2024) – Practical experience in cloud application development, backend APIs, and software automation solutions.

LANGUAGES

- **Languages:** English, Hindi, Bengali (Full professional proficiency in speaking, reading, and writing)
